

AirFold Carbon Powerchair

Product Code: ACFPC17BLK

Experience a new era of mobility with the Airfold, our light and airy power-house designed for ultimate freedom. Constructed from durable carbon fibre, this premium powerchair combines elegant design with remarkable strength. Its ultra-lightweight frame allows for effortless handling and transport. The Airfold redefines convenience by folding to a minimal size with incredible ease, ensuring it can accompany you on any journey.

Designed for comfort and practicality, the Airfold is packed with intelligent features. Navigate with precision using the intuitive joystick, while the air-permeable backrest provides support. Flip-up armrests allow easy transfers, and under-seat storage keeps belongings secure. With a USB charging port, puncture-proof tyres, and an included transport bag, the Airfold empowers you to explore with confidence and ease.

KEY FEATURES

Ultra-Lightweight Carbon Fibre Frame: The innovative frame offers exceptional strength while being incredibly light at just 17 kg, making handling and transport effortless.

Airline-Friendly Batteries: Equipped with lightweight, removable 24V 20Ah lithium batteries that are approved for air travel, empowering you to travel abroad with ease.

Convenient On-the-Go Charging: Features a built-in USB port to keep your essential small devices, like smartphones, charged while you are out.

Comfort-Focused Design: Includes an air-permeable backrest for superior comfort during extended use and a removable, washable seat cushion for easy hygiene.

Compact Folding & Portability: Folds to a minimal size with ease and includes a transport bag with a trolley function for convenient travel by car, train, or plane.

Intelligent Joystick Controller: Provides intuitive control with a clear display for speed settings and battery charge, plus a horn for added safety.

Easy-Access Flip-Up Armrests: The swivelling armrests flip up to facilitate smooth lateral transfers and allow you to sit closer to tables and desks.

Impressive Performance: Delivers a maximum range of up to 15 km and a top speed of 6.4 km/h, supported by durable puncture-proof tyres for reliable use.
