

AeroCarbon Powerchair

Product Code: ULCFPCHAIR

The AeroCarbon Powerchair redefines mobility by combining state-of-the-art carbon fibre technology with a sleek, user-centric design. Weighing an astonishingly light 12 kg, it stands as the lightest powerchair in the Drive DeVilbiss range, offering exceptional strength without the burden of weight. This chair is engineered for individuals who demand performance, style, and the ultimate in portability, making it the perfect solution for effortless daily use and travel.

Experience intuitive control and advanced comfort with this modern powerchair. Its simple, quick-folding mechanism makes it ideal for transportation in a car boot or taking on public transport. The AeroCarbon is also equipped with an air-travel-safe lithium battery and offers the flexibility of an optional attendant control system, ensuring it meets the diverse needs of users seeking an active, independent lifestyle.

KEY FEATURES

Ultra-Lightweight Carbon Fibre Frame: Premium quality, sleek carbon fibre frame weighs just 12 kg and is supported by a 5-year warranty for peace of mind.

Air Travel Safe Lithium Battery: Features a lightweight, 24V 10Ah lithium-ion battery that is safe for air travel and can be conveniently charged off-board.

High User Weight Capacity: Despite its lightweight build, the robust frame is designed to support a maximum user weight of up to 136 kg / 21.4 stone.

Compact & Manoeuvrable: With a narrow width of just 61 cm and a compact footprint, it is expertly designed for navigating through indoor spaces and busy areas.

Effortless Folding Mechanism: Designed for ultimate portability with a simple folding action, making it perfect for storage and transportation.

Powerful Brushless Motors: Driven by two reliable and efficient 24V, 150W DC brushless motors for smooth and responsive control.

Optional Attendant Control: An easy-to-fit attendant control unit is available, providing caregivers with the ability to assist with driving when required.

Advanced Comfort Seating: The chair includes a supportive 44 cm wide seat and backrest, ensuring comfort for the user during daily activities.
